## WHO WE ARE

GME Health is a one-source-solution clinical technology company that unlocks the full potential of medical equipment through superior management services, which ultimately limits delays in patient care. We facilitate cost-savings that have allowed hospitals and medical service providers to readjust budgets to purchase capital equipment, invest in growth opportunities, and renovate current locations.

Our unique position at the forefront of advancing technology allows us to utilize Artificial Intelligence (AI) and Machine Learning (ML) platforms to achieve success. And at GME Health we believe that our success is our customer-partners' success.

We welcome the opportunity to discuss and implement our varied services to demonstrate how our strengths and capabilities can accelerate excellence for your operation.

## OUR VISION

To be the global leader in medical supply products.

## OUR MISSION

To provide superior quality services, technology management, and cost-effective solutions for medical facilities, while being a reliable source for accelerating excellence at the center of healthcare.
