

A Burgeonstar Company

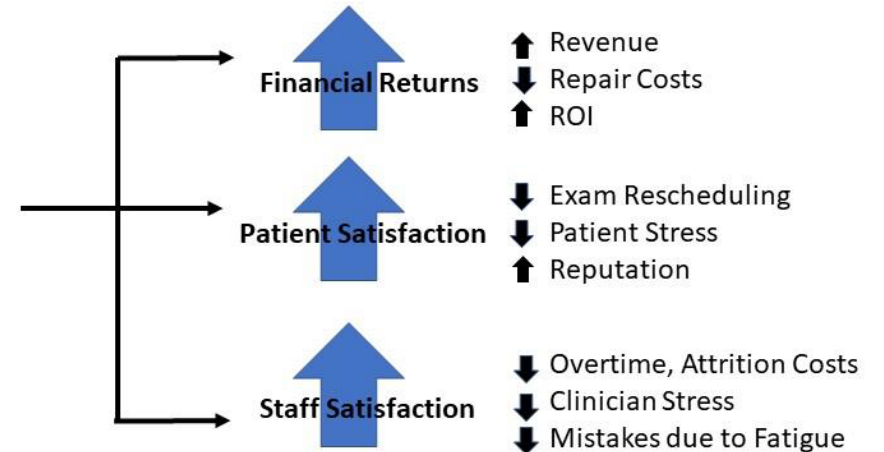

COMPANY PROFILE

WHY US?

We are a clinical technology management company that is a one-source solution which unlocks the full potential of your medical equipment, while still maintaining the highest quality of service on equipment and limited delay in patient care. We provide cost savings that have allowed the hospital to readjust budgets to purchase capital equipment, invest in growth opportunities, and renovate current locations.

GME Health* is considered a spearhead in technology by creating new Artificial Intelligence and Machine Learning platforms. Through a sit-down we can discuss more of the services we can provide and if your site is willing to allow us to prove our strengths.

OUR VISION

To be the largest trusted partner in clinical technology management and service in healthcare.

GME Health* can be the one-source solution to unlock the full potential of your medical equipment, while still maintaining the **highest quality** of service on equipment and limited delay in patient care.

OUR MISSION

To accelerate and be the center of healthcare excellence for medical centers in providing quality services, technology and cost-effective solutions.

As a spearhead in technology through creation of new Artificial Intelligence and Machine learning platforms, GME Health* is focused and driven to provide cost savings that allow hospitals to **maximize** budgets to purchase capital equipment, **invest** in growth opportunities, and **optimize** current locations.

OUR CAPABILITIES

GME Health* is a full-service support provider for Biomed, Imaging and Facility departments in hospitals and clinics. Our team has over 30 years of experience working with all modalities. Nationwide coverage is available for weekly, monthly or complete annual service contracts

Confidential. Not to be copied, distributed, or reproduced without prior approval.

OUR CAPABILITIES

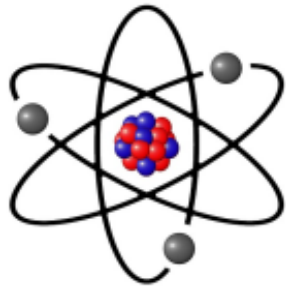

IMAGING

GME Health* recognizes how important it is that your imaging equipment is up and running with no delays. We offer the best engineers to guarantee your equipment will be available with limited downtime. We understand that the service you require needs to be completed at off peak hours, so all scheduled preventative maintenance will be performed after hours and on weekends, to prevent delay in patient care. We have contracted with the best parts vendors in the country to help retrieve parts quickly, getting your system up and running when a repair is needed. We are here 24/7 for your imaging needs, and get the job done fast.

CATH LAB SOLUTION

GME Health* has the cost effective solutions for your cath lab rooms to upgrade from your outdated suite into a modern one.

PHYSICISTS

Is your site compliant with The Joint Commission regulations? As of January 2019 an annual physicist report is required for your imaging equipment. Don't wait, contact **GME Health*** today to schedule. Our physicists are educated at the Master's and Ph.D. level, and they meet or exceed the guidelines for initial and continuing education set forth by the American College of Radiology (ACR) & Intersocietal Accreditation Commission (IAC). Our physicists hold active medical physicist licenses in the state of California, are board certified in diagnostic medical physics from the American Board of Radiology and will rival any medical physics company when it comes to experience.

OUR CAPABILITIES

MOBILE IMAGING

We can provide a loaner to suit your sites' requirements whether your room is down for short term renovations or your site does not have room for the system. We can custom create a rental plan that works with your needs.

- MRI
- CT
- NUC Med
- IR
- Ultrasound
- X-ray

INSTALL/DEINSTALLATION

Is your system obsolete or close to End of Life, and you don't have the time for a lengthy OSHPD or funds for a new system? We can provide you with a solution by upgrading or refurbishing your current system in a cost effective and timely manner. We have worked with architects, OSHPD, and great engineers to maintain the footprint and allow for the install and deinstallation of your system.

ULTRASOUND PROBES PROGRAM

GME Health* offers a unique program for any ultrasound clinic or hospital facility. With several packages to choose from, we can cover your specific needs that are unique to every site. We will come onsite and evaluate your ultrasound, and all transducers used. We can then design a custom package to best suit your site. We will also perform yearly preventative maintenance on your ultrasound. Please refer to the package options below.

- Assessment
- Loaner probes
- Exchange probes
- Time/material
- Preventative Maintenance
- Repairs

Confidential. Not to be copied, distributed, or reproduced without prior approval.

OUR CAPABILITIES

ENDOSCOPE

GME Health* can repair and loan you most endoscopes from Rigid to Flexible. Local same day delivery if necessary and overnight Nationwide. Call us for a quote.

ROBOTIC SYSTEMS

GME Health* can provide preventive maintenance and repairs on robotic systems and can provide a more cost-effective solution to replacing the Laparoscopic instruments.

LASERS/PHACO

We provide our expertise in preventive and corrective maintenance of all lasers. Lasers in general when cared for properly and when scheduled maintenance parts are replaced at least semi-annually will bring many years of profit beyond your ROI.

A proper maintenance procedure includes replacement of the following:

- Clean and dust optics
- Wipe down lenses
- Replacement of DI filter
- Replacement of Particulate Filter
- Clean flow switch
- Flush cooling system
- Measure output
- Align optics
- Replace faulty mirrors
- Test safety filter
- Footswitch continuity test
- Replace blast shield as applicable

Confidential. Not to be copied, distributed, or reproduced without prior approval.

OUR CAPABILITIES

BIOMEDICAL

We provide our expertise in preventive and corrective maintenance of all your equipment, with temporary staffing support. If you have people on long leave of absences, pump month, or biomed projects, we can provide 1 day to several months of staff.

Dialysis/Apheresis

GME Health tech team has over 15 years of experience working at universities, hospitals, and health systems.

RENTAL EQUIPMENT

We provide rental equipment for when you have a shortage. Our rental equipment can be short term or long term with rent to own options. Call us today for your rental needs

OUR CAPABILITIES

CLINICS

GME Health* is just what your clinic needs. We offer an array of packages to suite your specific site's individual needs. For example, we have the basic, once-a-year calibration and certification of all your equipment, with functional checks on mechanical exam tables and scales. We also have the Elite Package, that will provide calibration and certification and includes all services and parts required throughout the year. With the Elite Package, we can be onsite to repair your equipment as soon as possible, to prevent the loss of patient exams and revenue for the clinic. Let GME Health* evaluate your clinic needs today.

LABORATORY

GME Health* can provide you with the best support for your Laboratory needs. Most Labs are regulated by strict Certification Agencies whether it is CAP, CMS, CLIA, etc. GME* Health guarantees our documentation and certification practice will keep your department compliant. We set up and schedule all PM's and certifications according to your regulatory needs whether annual, semiannual or quarterly. Hard copies of all work orders are left in a binder for your site so when inspection time comes you are set.

FACILITIES

Providing expertise services in:

- Structure Cabling Repair and Maintenance
- Fiber Optic Cabling-Splicing, Repair, Re-termination
- Data Network Cabling
- CCTV Cabling
- Telephone Cabling
- IP /Analog Camera Design
- Intercom/PA Cabling
- CATV Headend Design and Cabling

Pioneers in Healthcare

Who We Are:

MedZon Health™ is a full spectrum medical supplier with corporate offices located in Anaheim, California. Our mission is to design, develop, manufacture, and deliver the best and highest quality products in the medical supply industry. We have nationwide staffing and logistics teams that ensure timely, reliable, and responsive service to hospitals, healthcare systems, and other valued customers throughout the United States.

Our Vision:

To be the world's leader in Medical Supply Products.

Our Mission:

To develop and produce the finest and highest quality medical products in the industry while delivering first class service to our clients.

A Tradition of Caring

The industry MedZon Health™ serves is a demanding and emotional one, as it addresses the challenges of a universal reality – human healthcare. At some point in our lives, all of us need care that restores and sustains us. At MedZon Health™, we aim to make our products the very best in the industry. This is what drives us – the fact that what we do, and how we do it, will directly impact the lives of others. The commitment of MedZon Health™ to be an exceptional company and fulfill our promise to truly impact the lives of others pertaining to human healthcare. Like many leading companies within the industry, MedZon Health™ prides itself on three main attributes:

PEOPLE

We acknowledge that people are the heart of all that matters at MedZon Health™ – the customers/patients whose care is entrusted to us through the use of our professional products. Each step we take is guided by respect, compassion, and empathy for others.

- People First
- Honesty and Integrity
- Knowledge

PASSION

We will aggressively pursue innovative solutions with uncompromising vigor. Our team will demonstrate the highest sense of urgency and quality in each step of the process.

- Dedication
- Unparalleled Service
- Teamwork

PERFORMANCE

We will bring to market high quality, best-value integrated solutions and products that address the needs of today's Healthcare environment and anticipate those of tomorrow.

- Product Superiority
- Total Quality
- Improving Patient Outcome
